

Insignia Usage Guidelines for RISIAs

January 2022

INSIGNIA OVERVIEW

These guidelines have been developed to help licensed RISIAs use and apply the RISIA insignia (the Insignia) correctly across their promotional and advertising assets. Using the Insignia properly and consistently reinforces the image of the immigration consulting profession, promotes brand awareness, and helps stakeholders and members of the public easily identify licensees of the College of Immigration and Citizenship Consultants (the College).

It is important to remember that the Insignia is owned by the College, and the Insignia's use is non-transferable and granted by the College to **licensees in good standing**. No licensee may use the College's corporate logo on any of their materials.

Do not commit any action that would reflect badly on the designation and, subsequently, the Insignia. The licence to use the Insignia could be revoked if it is used or represented improperly in any way.

STRUCTURE

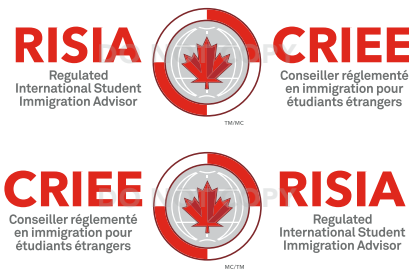

The Insignia is made up of a symbol and a wordmark. The symbol consists of a compass-like illustration featuring a maple leaf integrated into a globe icon on a grey background, surrounded by a four-section ring (RISIA compass rose). The wordmark consists of the acronyms "RISIA" and/or "CRIEE" with the official name underneath, spelled out in full in smaller type.

Official Insignia artwork exists and is shared with licensees in good standing. Contact communications@college-ic.ca if you do not have access to these files. Procurement from any source other than official College channels is not permitted; this action would make your use of the Insignia unauthorized. Use only the official digital artwork files - never attempt to recreate the Insignia or modify the existing artwork.

LANGUAGE VERSIONS

The Insignia comes in four different language versions: English-first bilingual, French-first bilingual, English only, and French only. Use the language version that is most applicable.
